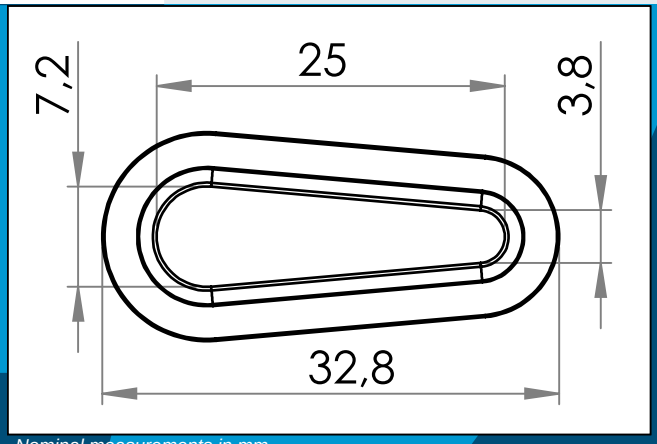
01-112 PVC Buttonhole Reinforcement

HF/ultrasonic weldable buttonhole reinforcement. For use with raincoats, protective gear or other areas where an easy and inexpensive attachment is needed.



Nominal measurements in mm

HF/ultrasonic weldable buttonhole reinforcement. for use with raincoats, protective gear or other areas where an easy and inexpensive attachment is needed.

Can be welded directly to PVC sheets and foils. Carmo's unique PVC blend ensures perfect weldings with minimal hassle.
Carmo´s specially designed welding electrode holds the buttonhole reinforcement in place enabling easy placement on the material. The electrode can also be used to cut thin unreinforced materials in the same operation, eliminating the need for punching.

Materials:	PVC, PVC/PUR
Std. packaging:	4 x 8.000
Fits with:	PVC Button 22.7 mm
Related products:	01-055, 09-099
