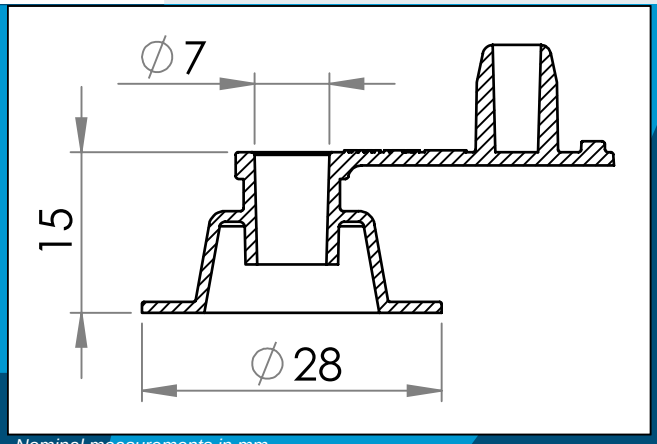
03-207 Low-profile inflation valve for inflatables, free flow, fixed plug, 7 mm

Valve for inflatables with fixed plug and 7mm inlet. Optimized for HF/RF welding. Specifically designed for use in application where a low profile inflation valve is needed.



Nominal measurements in mm

HF/RF weldable valve for inflatables. After inflation, the valve can be pushed down to be flush with the material it is welded to. When pushed in, the valve will only protrude approx. 10 mm into the construction.

The valves for inflatables are optimized for HF / RF welding.
Available in PVC PVC/PUR blend.

Materials:	PVC
Std. packaging:	1 x 4.000
