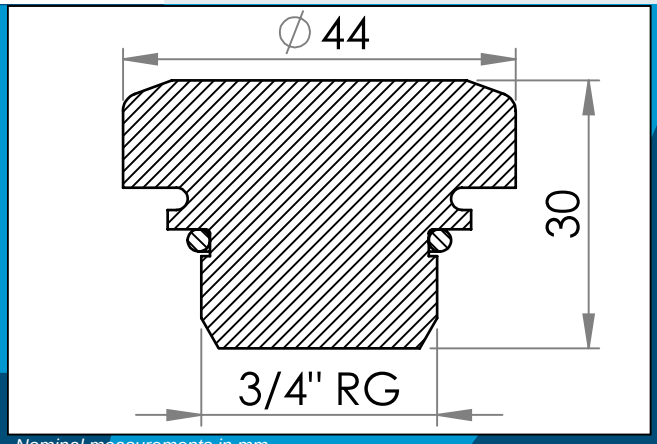
03-474 ABS plastic Pressure / Inflation Valve with G 3/4 inch pipe thread

ABS Pressure Valve / inflation valve. Ideal for dunnage bags and similar inflatable products up to approximately 0.3 bar.



Nominal measurements in mm

ABS Pressure Valve for 03-601, easy filling via compressed air pistol or tube adaptor 09-726. A low profile valve used for inflation. Ideal for dunnage bags and similar inflatable products.
Suitable for pressures up to approximately 0.3 bar

Carmo's modular valve system is built around a common weldable flange, which is available in materials suitable for HF welding on PUR or PVC.
The valve features a standard 3/4" socket in which the three functional valves can be mounted:

- Inflation valve
- Vaccum valve
- Pressure relief valve

Materials:	ABS+Metal
Std. packaging:	2 x 250
Fits with:	Threaded plastic flange with thread G 3/4", PVC protection Cap with attachment ring - Vented, Retainer Ring for weldable flange
Related products:	03-601, 03-284, 03-374, 03-307
