

03-475 Threaded Plug Incl. 'O'-Ring with G 3/4 inch pipe thread

ABS solid plug for weldable flange 03-601

Nominal measurements in mm

ABS solid plug that can be screwed into the 3/4" pipe thread (European) of the weldable PVC flange 03-601 when not in use.

A rubber gasket will seal the join and ensure that it is air and water-tight.

Carmo's modular valve system is built around a common weldable flange, which is available in materials suitable for HF welding on PUR or PVC.

The valve features a standard 3/4" socket in which the three functional valves can be mounted:

- Inflation valve
- Vacuum valve
- Pressure relief valve

Materials: ABS+Rubber

Std. packaging: 1 x 1.000

Fits with: Threaded plastic flange with thread G 3/4", PVC protection Cap with attachment ring - Vented, Retainer Ring for weldable flange
