

## 03-601 Threaded plastic flange with thread G 3/4"

HF/ultrasonic weldable plastic flange with internal G3/4" thread. Weldable onto PVC and PUR materials. Industry standard thread, compatible with a range of Carmo fittings and those of other manufacturers.

Nominal measurements in mm

HF/ultrasonic weldable flange with internal G3/4" thread. Forms the base of Carmo's modular valve system of inflation valves, pressure valves, overpressure valves and vacuum valves.

Used extensively in inflatable and maritime structures like rafts, boats, buoys, booms, water bags, water tanks, ballast bags etc. Small protrusions on the underside of the flange ensure that it does not stick to the material, shutting off airflow, in vacuum applications.

Materials: PVC, PVC/PUR

Std. packaging: 1 x 750

Fits with: PVC Threaded tube connector with G 3/4" pipe thread, ABS plastic Vacuum valve with G 3/4" pipe thread, Pressure Relief Valve with G 3/4" pipe thread, ABS plastic Pressure / Inflation Valve with G 3/4 inch pipe thread
