

03-714 PVC protection Cap with attachment ring - Vented

PVC protection cap for overpressure valve

Nominal measurements in mm

Protects the valve from dust and dirt, whilst still allowing venting when used with the overpressure valve. Snug fit to the valve body and a pull tab for easy removal.

Carmo's modular valve system is built around a common weldable flange, which is available in materials suitable for HF welding on PUR or PVC.

The valve features a standard 3/4" socket in which the three functional valves can be mounted:

- Inflation valve
- Vacuum valve
- Pressure relief valve

Materials:

PVC

Std. packaging:

1 x 1.000

Fits with:

ABS plastic Vacuum valve with G 3/4" pipe thread, Pressure Relief Valve with G 3/4" pipe thread, ABS plastic Pressure / Inflation Valve with G 3/4 inch pipe thread, Threaded Plug Incl. 'O'-Ring with G 3/4 inch pipe thread
