

09-114 Hanger for medical bags, with Pins, 140/160/180 mm

End of bed/wall hanger with pins For many types of medical bag and urine bags

Nominal measurements in mm

End of bed/wall hanger with pins For many types of medical bag and urine bags.

Must be paired with hook (09-112) sold separately.

Carmo's **hangers for urine bags** are supplied as 2 parts, which must be assembled before use: A bar on which the bag is placed and a clamp to go over the bedframe.

The bar is made with slits making velcro band an option as alternative to the clamp.

Carmo hangers are designed so that a dripchamber can be used in connection with the hangers.

The clamp is designed so that it can act as a hoseclamp during removal of the filled bag.

Carmo hangers are available in PP or PA materials. PA in case the hangers shall be sterilized.

Materials:	PA, PP
Std. packaging:	1 x 500
Fits with:	Hook for hanger for medical bags
