

03-645 Coin Groove Cap for weldable flange 03-601

Threaded plug with coin groove. For threaded plastic flange

Nominal measurements in mm

Simple plug for 03-601, G 3/4" pipe thread. Coin groove for screwing and un-screwing the plug.

The coin groove cap can be used to close and protect the port in the flange, when it is not used.

Carmo's modular valve system is built around the weldable flange 03-601 which features a standard G3/2 inch socket.

A range of valves and accessories can be attached to the socket.

Materials:	POM
Std. packaging:	4 x 500
Fits with:	03-601, 03-961
